MusicWeek's UK and EU Radio Airplay chart based on RadioMonitor data ©.

## UK AIRPLAY ANALYSIS

BY ALAN JONES

It dips to number seven on sales but there is no let-up in radio support for **Katy Perry's** latest smash Roar, which spends its fifth straight week atop the radio airplay chart - and is further ahead of the chasing pack than ever.

With a victory margin (based on audience size) of 21.52% on its first week at the summit, increasing to 47.31% the following week, then 60.05%, before falling to 59.50%, Roar is now a massive 73.62% ahead of its nearest challenger, after a miniscule 0.14% downturn in plays and an 8.29% jump in audience, week-on-week.

With a total of 5,145 plays generating an audience of 93.91m, it secured 26.55% of its listeners from 23 plays on Radio One and 14 plays on Radio Two.

Its biggest support came from The Hits Radio (86 plays), Capital London (80 plays) and seven

further Capital franchises on which it was aired 79 times.

The track which jumps 3-2 to become Roar's distant runner-up is the track which knocked it off the top of the sales chart four weeks ago - Talk Dirty by **Jason Derulo feat. 2 Chainz**. Talk Dirty doesn't look like a potential replacement for Roar on the radio airplay chart however - although it enjoyed a modest uplift of 4.23% in plays (from 2,551 to 2,659) its audience actually dipped 0.51% to 54.09m.

The two highest ranked new arrivals in the Top 20 of the radio airplay chart are by boy bands: **The Wanted's** latest hit, Show Me Love (America), dashes 32-7, while **The Vamps'** introductory single Can We Dance, jumps 25-13.

**The Wanted's** leap, accompanied by increases in plays of more than 41% and audience of more than 95%, was achieved

without a single airing from Radio One. Previously unplayed on Radio Two, it did, however, get seven spins from the latter station last

week, which generated 32.02% of the track's overall tally of 41.90m. The track's nine biggest supporters - with tallies of between 66 and 60

plays - were all Capital Network stations, and its next 17 biggest supporters (between 30 and 28 plays) were all members of The Heart Network. These aside, its top tally of 27 plays came from Bridge FM. **The Vamps'** track saw increases of more than 35% in plays and 40% in audience - but its 2-10 collapse on the sales chart this week will doubtless undermine its radio profile considerably.

Although further away from **Katy Perry** at the top of the radio airplay chart than he was a week ago, **Jason Derulo** remains ensconced atop the TV airplay chart with Talk Dirty. The promotional videoclip for the track was aired 821 times last week, down from its record tally of 849 the week before. It is still an impressive 186 plays ahead of its new nearest challenger, Avicii's You Make Me, which sprints 4-2 with 665 plays, up from 593 a week ago. **Derulo's** top supporters last week: Capital TV (97 plays), Chart Show TV and Smash Hits TV (74 each).
